

SAMEER Kandathinkarayil

Subiar

AI & Automation Engineer

Master's student in Applied AI for Digital Production and Management, with a background in Mechanical Engineering and a strong interest in artificial intelligence, automation, and data-driven innovation. Currently studying Data Management and building foundational skills in Python programming and data analysis through academic coursework. Motivated to apply structured thinking and analytical skills in real-world settings. Passionate about exploring new technologies and eager to contribute to innovative digital transformation projects.

PERSONAL DATA

Date of Birth: 18.05.1999, Kerala, India
Nationality: INDIAN

EDUCATION

M.Eng. Applied AI for Digital Production Management 03/2024 – present

Deggendorf Institute of Technology, Cham, Germany

- Focus on: Modelling and Simulation, Cyber-Physical Systems, Machine Learning and Deep Learning, Big Data, Natural Language Processing, and Production & Logistics Management.
- Current Average Grade: 2.7

B.Tech. Mechanical Engineering

10/2016 – 09/2020

APJ Abdul Kalam Technological University, Ettumanoor, India

- Focus on: Mechanical Design, Advanced Manufacturing, CAD/CAE, Mechatronics, Automation & Control, Industrial Engineering, and Production Systems.
- Bachelor's Thesis: Design And Numerical Analysis Of An Earth Air Heat Exchanger By Improving Thermal Efficiency Using Metallic Chips"
- Final Grade: 2.6

School Degree

10/2007 – 09/2016

Name of School, Town, Country

- Final Grade: 2.3

WORK EXPERIENCE

Junior Engineer

08/2021 – 05/2022

GRAVITECH INSPECTION SERVICES, Cochin, India

- Plan and develop technical processes and test procedures.
- Implement systems to ensure product and process quality.
- Ensure compliance with safety regulations.

- ▶ Assisted in instrument panel and handle unit installation for commercial vehicles.
- ▶ Operated front visor sealant applying robot, ensuring consistent quality and efficiency.
- ▶ Performed spot welding tasks as part of the structural assembly process.

ACADEMIC PROJECTS

Digital Twin of a Rotating Shaft for Predictive Maintenance

10/2025 – 01/2026

Case Study, Deggendorf Institute of Technology

- ▶ **Goal:** Developed a framework for Remaining Useful Life (RUL) estimation using a physics-based digital twin and data-driven deep learning.
- ▶ **Achievements :** Engineered a Simscape dynamics model to generate sensor data and trained a BiLSTM-Attention network to predict RUL, delivering an end-to-end monitoring dashboard.

Casting Product Defect Detection using AI (YOLOv8)

03/2024 – 06/2024

Case Study, Deggendorf Institute of Technology

- ▶ **Goal :** Automate surface flaw identification in casting products using AI-based computer vision.
- ▶ **Achievements :** Trained a YOLOv8 model to detect cracks and blowholes, significantly improving inspection accuracy and quality control efficiency.

TRAININGS AND CERTIFICATES

- ▶ **Python for Everybody Specialization** (University of Michigan, 2026) Completed 5- course series covering programming fundamentals, data structures, web data access, databases, and a capstone in data retrieval, processing & visualization with Python.
- ▶ **Introduction to Programming with MATLAB** (Vanderbilt University, 2026)
- ▶ **Certificate of Skill Training** (Ashok Leyland, 2021)
- ▶ **ASNT NDT Level II Certification** - Non-Destructive Testing (2020)
- ▶ **Introduction to Digital Manufacturing with Autodesk Fusion 360.** Autodesk, 2020

Regensburg, 01.05.2026

TECHNICAL SKILLS

- ▶ Python
- ▶ SolidWorks, MATLAB/ Simulink, ANSYS
- ▶ MS Office: PowerPoint, Word, Excel, Outlook, Project

PROFESSIONAL SKILLS

- ▶ Analytical thinking
- ▶ Critical problem-solving
- ▶ Communication & presentation
- ▶ Collaborative & independent
- ▶ Quick & continuous learning
- ▶ Adaptability to new technologies

LANGUAGES

- ▶ English – full professional proficiency (C2)
- ▶ German – A2

INTERESTS

- ▶ Coding, Programming
- ▶ Fitness, Cycling
- ▶ Badminton, Cricket
